"Fighting games have been a part of today's console gaming since the 1990s. They are still around, but also outdated. " I used to play the vast majority of "Fighting Games" I played back then. Yes, my experience may be limited from the eyes of an average player, but I'm telling you the time when new fighters

---

started to come out in Japan was back in the early 2000s.

During this period, fighting games were becoming highly popular in the arcades (today's fighting games mostly came to consoles and have diversified greatly). In 2004, I was crazy for Tekken 6, which was one of the strongest and popular fighters of the time, and I actually remember a lot of the well-known characters fighting in Tekken 6: Kagetora (Christopher Lambert), Dudley (Takeru Kobayashi), Paul Phoenix (Paul Phoenix) and some other well-known fighters from the world of Dragon Ball. I remember one of my best friends at the time just found a new way of playing.

---

Instead of using the buttons to attack, he would just press X and input a command, and nothing was even possible. Of course, he was all excited when he discovered this amazing game and joined in on playing it. It was truly back in the old times when fighting games were just the super sport that was starting to happen in Japan. The Turn of the Century: When new consoles came out, more than 10 years had passed, and new fighting games were starting to appear. 2011, released: Super Street Fighter IV and Super Street Fighter IV: Arcade Edition. 2011, released: Street Fighter IV: Champion Edition, Street Fighter IV: Third Strike

Online Edition, Street Fighter IV: V and Street Fighter IV: V Gold Edition. And what happened to Tekken 6? I don't know if it ever made it to XBLA or Playstation Network. I remember two years ago, I finally got Street Fighter IV: Champion Edition and I remember thinking, "damn, this is just a port of the Arcade Edition", and I feel ashamed of myself for paying \$40 for it. 2013, released: Tekken 7 and Tekken Revolution. 2014, released: Guilty Gear Xrd, Super Street Fighter IV: Arcade Edition Ver. 2012, released: Mortal Kombat 11 and Mortal Kombat XL. 2015, released: Dead or Alive 6, Guilty Gear Xrd Rev

Q: Why java doesn't fail String is not a well formed XML document Why is this code not throwing a exception? String res = ""; try { XMLInputFactory xif = XMLInputFactory.newInstance(); DocumentBuilderFactory dbFactory = DocumentBuilderFactory.newInstance(); DocumentBuilder dBuilder = dbFactory.newDocumentBuilder(); Document xmlDoc = dBuilder.parse(new ByteArrayInputStream(res.getBytes())); xmlDoc.getDocumentElement().getAttributes().getNamedItem("foo").setText("bar"); // NEVER HAPPENS } catch (Exception e) { // Never happens }

A: Because theres no syntax error in the XML. If you use a validating

XML parser, like the APIs included in the JDK, you should get a parse exception, which is what actually happens. You're expecting that XML is so simple that everything works like a file or something like that, but I can assure you that this is not the case. little save for a windbreak of poplar and the single fishing boat from St John's sitting in a tiny sheltered bay. In fact, after a week of rain we were actually getting warm. This is not good news. Bad news is that this time of year, the mosquitoes were very evident. We spent a little time after lunch packing up, leisurely, and I put up the tent. Our kayaks weren't packed. I'm not sure what happened. We headed out of the shelter of the trees, down to the

little bay. We checked the tent and found the front and back poles bent and/or broken, which meant we couldn't make the tent. But we still had the kayaks. I had been thinking that we would need the kayaks to go through the cave, but no big deal. We had been planning to paddle around and visit a couple of little islands, and on a day like this I thought there would be few people on a lake like this, and perhaps no one living. We went out to set the kayaks up and return to the village. We had been intending to go through the cave to the next lake. The path became more difficult to walk on, bff6bb2d33
