What's New In BabelPod?

- Automatic media search - Active synchronization - Intuitive interface - Direct and easy list management

Reviews BabelPod is a good software. My tracks on my iPod are synchronized with the first layer of the songs and the music from the first layer is the same, and most of the time the same as my iTunes library, and I do not even find what I used to listen to with iTunes. The big problem when I transfer music through iTunes is that sometimes the quality of the music is

as my iTunes library, and I do not even find what I used to listen to with iTunes. The big problem when I transfer music through iTunes is that sometimes the quality of the music is not exactly the same. Through BabelPod, the music sounds more beautiful
