Update : Crack Serial number key will send you via Email. If you don't want it, contact me. Thank you. O: Session Timeout and Session Inactivity I am using Session timeout in my application. I had restarted the machine in which the app is running and somehow the Session timeout is not working. How to check if the Session timeout is work or not. A: I use a System.Timers.Timer to check if my session is still valid. namespace SessionMonitoring { public class SessionMonitoring { private static readonly Timer timer = new Timer(); public static void StartMonitoringSession() { timer.Interval = 500; timer.Tick += CheckSession; // start timer timer.Start(); } public static void StopMonitoringSession() { timer.Enabled = false; } private static void CheckSession(object source, EventArgs args) { // get Timer var t1 = (Timer) source; // get Session instance 6d1f23a050
