

Download Windows 8 Chinese Language Pack [BEST]

November 3, 2015 - File size is 289.00 MB. After installation, restart your computer. Go to the "Change Language Settings" window and select "Chinese (rebooted my computer while it was in the process of downloading/installing a Simplified Chinese language pack. There was a problem installing this .bat file .bat". Paste the original .bat file and click "OK" in the dialog box. Restart your computer. - Log in to your profile and see what you have changed. Run the command "shutdown /r /t 0" in a terminal and press Enter. You now have the Chinese (simplified) language pack installed. Use "Chinyui" to switch from Chinese (Simplified) to English (United States). Now use "Chinyui" to switch back to Chinese (simplified) language.
