Q: Is there a way to increase the limit of messages in the Amazon SQS topic We are running some tasks on AWS Lambda, and are storing them in a SQS topic. We are using a Lambda function to process the SQS messages, and this is working great. But at some point we need to increase the size of the messages we can handle, and this is happening now. We keep getting this error: An error occurred (MessageTooLarge) when calling the PutMessage operation: The maximum message size (16 MB) is exceeded. Is there a way to increase this limit? The documentation for SQS doesn't mention anything like this, so we're wondering if it's possible to increase this limit? A: You can raise this limit by contacting AWS Support: A: From the documentation of SQS: Amazon SQS has a maximum size of 16 MB per message. This limit can be
