Do not enter multiplayer content with your Microsoft account (if you have one). Miscellaneous.You have noticed that your Internet connection is not working or that you don't get an IP address on the Internet. An Internet Service Provider (ISP) can become unavailable to its subscribers if a cable is damaged or a personal computer (PC) or router malfunctions. A Network Engineer has the ability to restore Internet service by inspecting the Internet connection directly or by using a Remote Access Service. If you feel comfortable, you can even do it yourself. Insisting that you know how to do this is pointless unless you are willing to try it on your own first and learn to recognize and fix the problem yourself.The Pitcher's Crib. A 1-year-old girl suffered an infraorbital laceration after a plastic bottle (pitcher) fell on her face. A thorough surgical history and physical examination were obtained from the mother and examined by a plastic surgeon. The appropriate examination techniques were demonstrated. The plastic surgeon then planned a staged repair to restore the shape and size of the patient's eye socket. The final repair, which involved a free radial forearm flap to reconstruct the anterior portion of the periorbital region, had a good cosmetic outcome. Pitcher's Crib reconstruction requires a good understanding of the different reconstruction options and proper examination technique. BIP
